Three South West Ontario Pharmacies Gain Access to OLIS

Another three ClinicalConnect Participant organizations, representing four sites, have recently been authorized to access data from the Ontario Laboratories Information System (OLIS) using ClinicalConnect. Three of these sites are pharmacies, marking a major milestone because these represent the first pharmacies in the province of Ontario to be able to view this valuable data set using a regional clinical viewer. Together with the cSWO Program and its four Change Management & Adoption Delivery Partners, we look forward to working with additional pharmacies so they too can gain access not only to their patients' community lab data in OLIS, but to their patients' other types of health records, enabling them to deliver more efficient, safer health care.

The three Participant organizations recently enabled with access to OLIS are:

ClinicalConnect's New User Interface Launches November 4

Come early November, ClinicalConnect users will be presented with a retooled and refreshed version of ClinicalConnect, otherwise referred to as Release 5.0. Launching on November 4, 2017, the new version of ClinicalConnect will provide users with a modernized look and feel, plus increased functionality and enhancements to improve the overall user experience.

Here's a sneak peek at the new user interface! After logging in, users' first stop (once a patient is selected) will be the Patient Dashboard. The Patient Dashboard, by default, is what will first display when accessing a patient's record. It allows users to view multiple clinical modules all at once. This new Patient Dashboard includes a drag and drop feature so users can organize data according to their clinical needs.

The screenshot shows the Patient Dashboard interface. It features a navigation bar at the top with various icons. Below the navigation bar is a table with columns for Event Date, Transcribed Date, Name, Department, Collected Date, and Test. The table contains several rows of data, including EEG, Clinic Note, Consultation, and History and Physical. Below the main table is a section for Microbiology, which includes a table with columns for Collected Date, Test Name, Specimen Source, and Organisms Isolated. The Microbiology table contains several rows of data, including Urine Culture, Throat Culture, and Blood Culture.

Event Date	Transcribed Date	Name	Department	Collected Date	Test
03/05/2017	03/05/2017 15:21	EEG	MEDICAL DIAGNOSTIC L	05/10/2015 12:46	ETHANOL
20/04/2017	20/04/2017 10:34	Clinic Note	HEALTH RECORDS/TRAI	05/10/2015 12:46	GLUCOSE RANDOM
27/04/2017	27/04/2017 10:31	Clinic Note	HEALTH RECORDS/TRAI	05/10/2015 12:46	ELECTROLYTES
27/04/2017	27/04/2017 10:42	Consultation	HEALTH RECORDS/TRAI	05/10/2015 12:46	CREATININE
27/04/2017	27/04/2017 10:43	History and Physical	HEALTH RECORDS/TRAI	05/10/2015 12:46	CK
27/04/2017	27/04/2017 10:44	Clinic Summary	HEALTH RECORDS/TRAI	05/10/2015 12:46	TOTAL CO2

Collected Date	Test Name	Specimen Source	Organisms Isolated
20/03/2017 11:14	Urine Culture	Midstream Urine	Escherichia coli;Klebsiella pneumoniae;Methicillin Resistant S.aureus;Staphylococcus
20/04/2017 07:14	Urine Culture	Midstream Urine	
20/04/2017 07:14	Throat Culture	Throat	Streptococcus pyogenes,Gip A
15/03/2017 09:15	150.9000	ANK	MRSA/PSEAEAR
15/03/2017 09:15	120.0010	UCC	ESCCOL
18/05/2017 06:45	Blood Culture, Aerobic #1	BLOOD	
28/03/2017 13:36	C18T1BF-FYFS/FARS	FAR LEFT	

- * Elston Pharmacy Ltd. (Erie St. Clair LHIN)
- * Drew Peddie Pharmacy Inc. - 2 sites (South West LHIN)
- * Brant County Health Unit (HNHB LHIN)

Welcome to New ClinicalConnect Participant Organizations!

Congratulations to the following healthcare organizations that were approved to become ClinicalConnect Participating Organizations in September 2017:

- Ingersoll Pharmacy Services Inc. [South West LHIN]
- Mitchell Ontario Family Health Organization [South West LHIN]
- Strathroy Family Health Organization [South West LHIN]
- Le Bon Pasteur Pharmacy Ltd. [HNHB LHIN]

[Check out our Educational Resources!](#)

The first time users log into ClinicalConnect after the implementation is complete in November, the Dashboard will be empty; but all users need to do is quickly drag and drop the modules they'd like included in their Dashboard. Icons representing each module in ClinicalConnect are located immediately above the Dashboard area making set up easy. Data from the modules included in the Dashboard can be displayed in side-by-side or full-width views and will automatically include the users existing encounter level and days back filter setting.

We are pleased to offer users an opportunity to learn more about the enhancements. Sign up for one of four webinars scheduled for **October 23-26, from 4:00-5:00 p.m. each day; each session is the same and we hope users can make time to attend one.** [Click here](#) to register to learn more about the new and improved ClinicalConnect!

Future newsletters will include more information about the new version of ClinicalConnect (Release 5.0), and posted to <http://info.clinicalconnect.ca/CC/release5-0>. Inquiries can be directed to info@clinicalconnect.ca or to your LHIN's cSWO Change Management & Adoption Delivery Partner.

Expanded Access to DHDR Data Continues

Users at Cambridge Memorial Hospital now have access to the Digital Health Drug Repository (DHDR) from within ClinicalConnect, bringing the total number of Participant organizations with access to this repository to 53.

To view Participant organizations that currently have access to DHDR data, in addition to other provincial repository data, please [click here](#).

Reminder: We Want to Know What You Think About Digital Health

If you haven't completed this survey developed by the cSWO Program and its Delivery Partner teams, please consider taking a few minutes to share your insights.

The connecting South West Ontario (cSWO) Program, which supports the deployment of digital health tools such as ClinicalConnect and Health Report Manager (HRM), have identified an important need to raise awareness and understanding of the current and future benefits of digital health in our region.

In partnership with the cSWO Program's Change Management and Adoption Delivery Partners, our first step is to better understand the perception of digital health and we want to hear from you! The following survey will only take a few minutes to complete. [Click here](#) to start the survey.

STAY CONNECTED

We care about what you think.

Take our survey on digital health.
