

## What is ClinicalConnect EMR Download ?

ClinicalConnect Electronic Medical Record (EMR) Download (in conjunction with your office EMR Vendor) allows physicians to electronically download patient information such as: Blood Bank, Lab, Microbiology, Pathology, Radiology Reports & Transcriptions from ClinicalConnect into physician's office electronic medical record systems.

## How does ClinicalConnect EMR Download work?

ClinicalConnect EMR Download process integrates information already available in ClinicalConnect and uses Health Level Seven (HL7) messaging standard for the secure delivery of clinical information into your EMR. Physicians must work with the EMR vendor(s) to establish the upload procedures applicable to the office EMR.
