Data from 11 More Hospitals Now Available in ClinicalConnect™

We are pleased to announce another significant milestone has been achieved with the successful integration of data from the remaining 11 hospitals in the South West (SW) Local Health Integration Network (LHIN). Now data from all acute care hospitals in the SW, Waterloo Wellington and Hamilton Niagara Haldimand Brant LHINs is available to authorized users in ClinicalConnect. With this integration complete, only six hospitals in the Erie St. Clair (ESC) LHIN remain to be integrated and it's expected data from those facilities will be available this summer. At that point, data from all 67 acute care hospitals and four Community Care Access Centres in South West Ontario, plus data from select provincial repositories, will be accessible in ClinicalConnect.

The recently completed SW integration makes data from the following sites, including diagnostic images each sends to the Southwestern Ontario Diagnostic Imaging Network (SWODIN), available in ClinicalConnect:

- Grey Bruce Health Services
 - Lion's Head Hospital
 - Markdale Hospital
 - Meaford Hospital
 - Owen Sound Hospital
 - Southampton Hospital
 - Wiarton Hospital
- Hanover and District Hospital
- South Bruce Grey Health Centre
 - Chesley Site
 - Durham Site
 - Kincardine Site
 - Walkerton Site

As a reminder, please use Internet Explorer 9+, Safari 6.0+, Google Chrome 20+ and Firefox 14+ when viewing SWODIN images. To view diagnostic images, click the camera icon in ClinicalConnect. Some Citrix corporate environments may not support compatible browsers so you may need to launch SWODIN images outside of Citrix.

Our sincere thanks to our partners at the Grey Bruce Information Network and SWODIN for their assistance during this integration project, and we look forward to bringing the remaining hospitals in the ESC LHIN online with ClinicalConnect in a few short months.

ClinicalConnect is the Regional Clinical Viewer for the connecting South West Ontario (cSWO) Program, funded by eHealth Ontario. Hamilton Health Sciences is the Solution Provider deploying ClinicalConnect across the four South West LHINs. The cSWO Program is foundational to eHealth Ontario's commitment to integrate electronic health information for all Ontarians.
