Phase 2 of the SWODIN Diagnostic Images Integration with ClinicalConnect Complete

We are pleased to announce that Phase 2 of the integration of diagnostic images from the Southwestern Ontario Diagnostic Imaging Network (SWODIN) with ClinicalConnect is complete. Diagnostic images from the following hospitals are now available in ClinicalConnect:

- Cambridge Memorial Hospital
- St. Joseph's Healthcare Hamilton
- Wellington Health Information Network (WHIN)
 - Groves Memorial Community Hospital
 - Louise Marshall Hospital
 - Palmerston and District Hospital
 - Guelph General Hospital

The addition of diagnostic images from these hospitals complements those already available in ClinicalConnect for Hamilton Health Sciences, Norfolk General Hospital and St. Mary's General Hospital.

Please use Internet Explorer 9+, Safari 6.0+, Google Chrome 20+ and Firefox 14+ when viewing SWODIN images. To view diagnostic images, click the camera icon in ClinicalConnect. Some Citrix corporate environments may not support compatible browsers so you may need to launch SWODIN images outside of Citrix. The ClinicalConnect User Guide is available at <http://info.clinicalconnect.ca/referenceguides> and other education resources related to SWODIN images are available at <http://info.clinicalconnect.ca/modules>.

SWODIN connects radiologists, referring physicians and specialists at hospitals across southwestern Ontario, allowing them to instantly access, exchange and store diagnostic images and reports. SWODIN is the first network of its kind in North America to provide access to patient images acquired at multiple facilities using multiple vendor platforms.

ClinicalConnect is the Regional Clinical Viewer for the cSWO Program, funded by eHealth Ontario. Hamilton Health Sciences is the regional service delivery partner deploying ClinicalConnect across the four South West LHINs. The cSWO Program is foundational to eHealth Ontario's commitment to integrate electronic health information for all Ontarians.

Our thanks to the Mohawk Shared Services and SWODIN teams for their assistance and continued commitment in bringing these image integrations to fruition.

For more information about this update and to see the Integration Status Chart that provides an overview of all data available in ClinicalConnect, please visit <http://info.clinicalconnect.ca>.
