

## Overview 2017

### About ClinicalConnect

- Securely aggregates essential electronic patient care data in real-time from Hospitals, CCACs & Oncology Centres in Southwest Ontario, OLIS, SWODIN, DHDR, DI-CS
- All access by authorized healthcare providers is subject to audit
- Accessible on desktop computers, tablets or mobile devices such as: iPhone™, iPad™, Blackberry™, or Android™
- Settings/preferences can be customized by users
- Physicians in some LHINs have the option to electronically download hospital data into their EMRs
- Single Sign-On and direct launch from select HIS capabilities provide quick and easy access

### Patient Care & Safety Benefits

- Offers 24/7 access to patients' essential health information
- Reduces duplication of tests and procedures, saving time, discomfort and cost
- Improves the transfer of care between healthcare providers and other healthcare organizations
- Provides secure and private access to accurate health information
- Reduces duplication of healthcare documentation
- Improves coordination across the continuum of care
- Increases patient safety and the quality of care

### Key Modules & Functionality

- Patient Search** conducted by Name, HCN, MRN
  - Advanced Search provides multiple sorting options
- Patient Lists** provided by inpatient/outpatient locations (Station/Ward/ED)
  - Option to customize Patient Lists using "My Worklist"
- Flags identify **Health Links** patients in patient header (currently for HNHB LHIN Health Links patients)
- New Results** flag new and abnormal results from the last 24, 48 or 72 hours
- Patient Visits** includes historical and future scheduled appointments
- Transcription Module** typically includes Discharge, OR, Consult and Progress Notes; can be filtered by **Oncology** progress notes
- Lab/Microbiology/Pathology & Genetics Modules** include:
  - Hospital and Ontario Laboratories Information System (OLIS)** lab reports
  - Lab Module** features graphing & trending capabilities; expanded or list views; results can be filtered by Hematology, Coagulation and Chemistry
  - Microbiology Module** includes Virology results (Hepatitis, Rubella, CMV & all needle stick Serology tests)
- product and includes column sorting
- Radiology Module** includes:
  - Diagnostic Services Reports** (e.g. Radiology, Nuclear Medicine)
  - Radiology images** from hospitals (check [Integration Chart](#))
- Pharmacy Module** filters medication orders as: Active, Inactive, On Hold, Discontinued or All. Applies to in-patient hospital pharmacy orders only for selected visits/encounters. Home Meds View lists meds/pharmacy services from DHDR covered by ODB
- Allergies Module** lists allergies which are also flagged in the patient header
- Health Records** includes scanned historical health records data from Hamilton Health Sciences and Niagara Health System
- CCAC Module** includes notes, client demographics, personal & medical contacts, service list, placement list, characteristics, LTCH choices & bookings, community support and other resources, diagnoses, primary care group, risks, safety issues, allergies
- Resources** include:
  - RNAO BPGs:** Nursing Best Practice Guidelines

## ClinicalConnect Expansion

ClinicalConnect is the Regional Clinical Viewer for the connecting South West Ontario (cSWO) program, funded by eHealth Ontario. Hamilton Health Sciences is the Solution Provider deploying ClinicalConnect across the four south west Ontario LHINs. The cSWO Program is part of eHealth Ontario's ConnectingOntario initiative which is enabling the Province to achieve an electronic health record solution for all Ontarians.
