More Scanned & Archived Records Now Viewable in ClinicalConnect

We are pleased to announce that effective April 15, 2020, scanned and archived data from Woodstock General Hospital is now viewable within ClinicalConnect's Health Records module. This adds to data already available in this module from Hamilton Health Sciences and Niagara Health, and the same from St. Thomas Elgin General Hospital is expected to be integrated as well in the coming months.

Thank you to the team at Woodstock General Hospital for their collaboration with us to increase the sharing of electronic medical records amongst patients' authorized healthcare providers.
