Viewing Cardiology Data from Joseph Brant Hospital in ClinicalConnect's Cardiology Module

We are pleased to announce that select types of Cardiology-related data from Joseph Brant Hospital have been moved from either the Radiology and/or Transcriptions modules, to ClinicalConnect's Cardiology module.

ClinicalConnect's Cardiology module now displays results for the following types of cardiac tests performed at Joseph Brant Hospital, including but not limited to:

- Echocardiograms (ECHOs)
- Electrocardiograms (ECGs)
- Cardiac Stress Tests
- Holter Monitoring
- Cardiac MRIs
- Cardiac CTs

Please be sure to check the Radiology and/or Transcriptions module if you're not seeing the data you'd expect to see in the Cardiology module. ClinicalConnect's [Data Integrations Chart](#) provides a high-level summary of the data available in each clinical module.

For more information on ClinicalConnect, visit <https://info.clinicalconnect.ca>, or contact: Kate Black, Service Delivery & Communications Manager, blackka@hhsc.ca

ClinicalConnect is a secure, web-based portal that gives authorized healthcare providers real-time access to their patients' electronic medical information. It is operated by Hamilton Health Sciences and funded by Ontario Health.
