How Has ClinicalConnect Helped You?

"We have had numerous neurosurgical patients from Hamilton, and having the details of what was done in Hamilton [through ClinicalConnect] was helpful. This is especially true on night shift, when you can't just ask the ward clerk to get the report as you work on seeing other patients."

Dr. Dan Finnigan, Hospitalist, Guelph General Hospital

London & Region Hospital Data Now Available in ClinicalConnect

We are thrilled to announce that data from London, Thames Valley & Regional Hospitals has been integrated with ClinicalConnect, effective August 20, 2014. The additional sites include:

- London Health Sciences Centre
 - University Hospital
 - Victoria Hospital
 - Children's Hospital
 - London Regional Cancer Program
- St. Joseph's Health Care
 - St. Joseph's Hospital
 - Parkwood Hospital
 - Mount Hope Centre for Long Term Care
 - Regional Mental Health Care London
 - Southwest Centre for Forensic Mental Health Care
- St. Thomas Elgin General Hospital
- Tillsonburg District Memorial Hospital
- Woodstock General Hospital
- Alexandra Hospital
- Middlesex Hospital Alliance
 - Strathroy Middlesex General Hospital
 - Four Counties Health Services
- South Huron Hospital Association
- Listowel Wingham Hospitals Alliance
 - Listowel Memorial Hospital
 - Wingham and District Hospital

This integration marks a significant achievement as it provides an enormous amount of additional patient data to the portal that can be used by authorized physicians and clinicians to enhance patient care and provider

New eLearning Modules!

Short and sweet eLearning modules covering New Results, Simple Search and Search Scope are now available on the [ClinicalConnect website](#). More will be available soon, please check back for updates.

efficiency. Our thanks to our partners at these sites for their assistance and commitment in bringing this integration to fruition.

Diagnostic images from SMGH also available in ClinicalConnect

We are pleased to announce that diagnostic images from St. Mary's General Hospital have been successfully integrated with ClinicalConnect. This is the second site to go live as part of the Southwestern Ontario Diagnostic Imaging Network (SWODIN) integration with ClinicalConnect; diagnostic images from Norfolk General Hospital were integrated on July 21. As previously announced, images from more hospitals will follow in the next phases of this integration. The addition of these images complements the diagnostic imaging reports that are already available in ClinicalConnect.

Please use Internet Explorer 9+, Safari 6.0+, Google Chrome and Firefox when viewing SWODIN images. To view diagnostic images, click the camera icon in ClinicalConnect. Some Citrix corporate environments may not support compatible browsers so you may need to launch the SWODIN images outside of Citrix.

The ClinicalConnect User Guide is available at <http://info.clinicalconnect.ca/referenceguides> and other education resources related to the new SWODIN images are available at <http://info.clinicalconnect.ca/modules>.

SWODIN connects radiologists, referring physicians and specialists at hospitals across southwestern Ontario, allowing them to instantly access, exchange and store diagnostic images and reports. SWODIN is the first network of its kind in North America to provide access to patient images acquired at multiple facilities using multiple vendor platforms.

Our thanks to the teams at Mohawk Shared Services and SWODIN for their assistance in bringing the integration of images from this site to fruition.

For support please email Help Desk at helpd@hhsc.ca or Call Help Desk: (905) 521-2100 ext 43000
