 Includes Radiology Reports and Images

The electronic health records viewable through ClinicalConnect include data and information from across the province to enable health care professionals in south west Ontario to make proactive decisions and support positive experiences for patients and residents.

3.6 Million

residents in south west Ontario
(30% of the provincial population)

Patient information that is available from the following **south west Ontario** data contributors, includes:

ClinicalConnect Data Contributors

100%
of acute care hospitals

All 72 acute care hospitals

100%
of home and community care services

All four Local Health Integration Networks' Home & Community Care Services (LHINs-HCC)

100%
of regional cancer care programs

All four Regional Cancer Programs

Southwestern Ontario Diagnostic Imaging Network

Images and reports from 70 hospitals

Patient information that is available from the following **province-wide** data contributors, includes:

Provincial Data Repositories

Acute and community clinical data repository (acCDR)

Select hospitals and all 14 LHINs-HCC

Diagnostic Imaging – Common Service (reports) (DI – Common Service)

Reports from select hospitals and independent health care facilities

Digital Health Drug Repository (DHDR)

Data and information from Ontario publicly funded drugs and pharmacy services

Ontario Drug Benefits (ODB), OHIP+, Narcotics Monitoring System (NMS)

Ontario laboratories information system (OLIS)

Lab test orders and results from hospitals, community labs and public health labs

Note: Access to provincial data repositories requires successfully working through additional provincial eligibility requirements, including privacy and security assessments. For more details, refer to the [ClinicalConnect Integration Status Chart](#).
